This year's ISH China & CIHE – China's leading international trade fair for Heating, Ventilation, Air-Conditioning, Sanitation & Home Comfort Systems will take place from 11 – 13 May at the China International Exhibition Center (Shunyi Hall) in Beijing. As one of the most prominent HVAC events in China, the 2023 edition will incorporate a number of well-known HVAC industry experts to exchange ideas and introduce innovative technologies through an array of high-quality concurrent events.

ISHC & CIHE 2023 is set to open its doors in two weeks. In addition to the latest products and innovations to be showcased by international exhibitors, the fair will also feature over 40 conferences and seminars in response to the Chinese government's green initiatives. Focusing on the fair's three major themes: "Energy", "Water" and "Life", renowned professionals from the HVAC sector will share insights on the latest technological advancements and market trends, which will allow participants to get a better grasp on the current state of the industry.

China International HVAC Congress to explore energy-related topics

The **China International HVAC Congress (iHVAC)** is one of the main highlights of the fair's fringe programme. This year, ISHC & CIHE will once again cooperate with the China District Heating Association (CDHA) to host the "International Summit of Future Development Trends for Urban Energy and New Energy Storage Technology", with prominent representatives from local and international governments, as well as industry experts and academics who will discuss in depth the developments around energy storage and use in the HVAC industry.

- **Organisers:** China District Heating Association (CDHA), Messe Frankfurt (Shanghai) Co Ltd and CIEC GL events (Beijing) International Exhibition Co Ltd
- **Date & time:** 11 May 2023 (9:30 – 16:30)
- **Venue:** Meeting Room W-201, South Entrance Hall (2F)

Design Institute Chief Engineer Forum to debut this year

For the first time, the fair's organisers are working together with the Building Environment and Energy Utilisation Branch of China
